

# Professional Detergent for dishwashers

## Professional detergent for dishwashers

Ideal for all types of crockery: ceramic, porcelain, glass, crystal and metal (aluminium and light metal alloys excluded).  
Highly efficient product in all water conditions: soft, medium and hard water

### Area of application

Professional kitchens, cafeterias, bars, restaurants, canteens, commercial catering kitchens

**Suitable for:** hood type dishwashers, undercounter, glasswashers, pot and pan washers

### Description

**Professional Detergent for dishwashers** is a controlled-foam alkaline liquid detergent with high degreasing properties, which guarantees the complete washing of dishes, cutlery, pans, pots and glasses.

It easily eliminates dried food residues and all types of dirt, leaving the crockery perfectly clean.

Thanks to its special formula, it is an ideal product for glasswashers, for washing cups and glasses, even crystal ones. It is very functional for removing caffeine and theine deposits from cups and teapots. Furthermore, its delicate aroma - which does not remain on the crockery - helps minimize the unpleasant odour which can sometimes be found in dishwashers.

Highly recommended for restaurants preparing fish and sea food.

**This product is the result of thorough testing in the Electrolux laboratories.**

**Professional Detergent for dishwashers** is the best solution for sparkling clean crockery and for maintaining high performance levels of the dishwashing machinery.

**Professional Detergent for dishwashers**
**Chemical-physical characteristics**

|                         |                        |
|-------------------------|------------------------|
| <b>Form</b>             | Clear liquid           |
| <b>Colour</b>           | Light yellow           |
| <b>Odour</b>            | Faint characteristic   |
| <b>Specific weight</b>  | 1.275 ± 0.01 g/ml      |
| <b>Water solubility</b> | Complete in all ratios |
| <b>pH</b>               | 14                     |
