

Combico UK is the specialist training arm of the First Choice Group and provides technical training courses and assessments for engineers and technicians working within the commercial foodservice industry. Its dedicated onsite training facility is conveniently located at the centre of the country in Cannock and has good motorway connections throughout the country. Training is provided by a team of professional trainers who have many years experience in the commercial catering equipment industry. Facilities include a fully functional professional kitchen together with the very latest in educational technology to ensure that the training team can provide effective and engaging courses for those who attend.

### MKN COMBI OVEN TRAINING

Combico UK are an appointed Service Training and Spares Partner for MKN and have been approved as the National Technical Training Centre for service technicians in the UK.

Courses include both installation and maintenance of the MKN range of combination ovens and all engineers who attend a course can benefit from continued technical support from the Combico UK training team.

Courses are held throughout the year but can be specially arranged to suit individual requirements - call Combico UK on 01543 460385 to discuss any special needs.

### MKN Flexi-Combi Training

Featuring the MagicPilot touch and slide operating system, includes a mix of both theoretical classroom environment learning alongside practical demonstrations. This course is fully certified by MKN.

Once fully trained and certified, the technician who has completed the course will be given details on how to register and access the Parts Technical Platform on the Combico UK website.
