Infiniti 2

Infiniti is the ultimate choice for a wide range of commercial applications, with additional benefits including the ultra slim profile and bottom loading glueboard which make the unit perfect for areas lacking in wall space.

UV LED source, offers 67% savings in energy running costs!

- Unique positioning of the UV LEDs behind the glueboard, for improved catch.
- Glueboard access from the bottom for quick and easy servicing
- Low energy running costs
- Compact model for discretion and space restricted installations
- Quick tool free access gives simple access to consumables for easy maintenance
- High efficacy UV LED strips provide a 3 year effective life
- Removable lure tray for liquid attractant
- Designed for use with Glupac® glueboards with UV stabiliser
- Independently tested and certified to RoHS and all relevant European standards

INFINITI-UK	1106000155

Halo

Halo can be vertically or horizontally wall mounted, or desk mounted* using the specially designed desk mounting feet. The compact 15W unit can even be discreetly mounted above doors for areas where space is restricted.

- Commercial efficacy with a contemporary discreet aesthetic for a wide range of applications
- Side access to glueboard for quick and easy servicing
- Aluminium removable debris tray
- Adjustable light apertures for maximum light output or prevention of dust ingress
- Compact 15W model for space restricted installations
- Quick tool free access gives simple access to consumables for easy maintenance
- High efficacy UV tubes
- Designed for use with Glupac® glueboards with UV stabiliser
- 45W IP Aqua model available for hose down and sensitive areas
- Independently tested and certified to RoHS and all relevant European standards
- Tubes: 1 / 2 / 3 x TPX15-18
- Glueboard: 1 x GB012
- Suggested area coverage: 40 / 80 / 120m²

Plus-Zap

The third generation PlusZap model offers up to 35% reduction in energy consumption cost* and is 20mm slimmer in design saving on space when installed. In addition, the power cable is now hardwired, improving usability. The PlusZap features staggered lamps to create efficient UV light output whilst the killing grid offers an effective catch area with easy servicing making it ideal for commercial environments.

- Slim and discreet design
- Pre-installed powerful UV lamps to attract flies
- Robust aluminium and UV stable plastic construction
- Staggered lamps to create efficient UV light output
- Three simple to install mounting options for wall, desk or ceiling suspension
- Catch tray is simple to remove for quick and safe maintenance, with anti-blow out folds
